

Energy Assessment

Student's Name: _____ Date: _____

Objective: Illustrate the seven different forms of energy.

Task: Each group will create a poster showing the seven forms of energy.

- Cut out pictures for Mechanical Energy (including Potential & Kinetic), Thermal/Heat Energy, Radiation (Light) Energy, Sound Energy, Electrical Energy, Chemical Energy, & Nuclear Energy.
- Label each.
- Write how each picture represents that energy.
- Check for spelling, & content and add color if available.

Grading Rubric:

1. Each of the seven energy forms is illustrated.
2. Each of the seven energy forms is labeled.
3. Each of the seven are explained/illustrated.
4. Spelling, content, & color are used to enhance the poster.
