

# The Illusion of Space: Shading

We use LINE to create VALUE.

VALUE is...

This is a value scale, showing 10 degrees of gray between white and black.

Shading is...

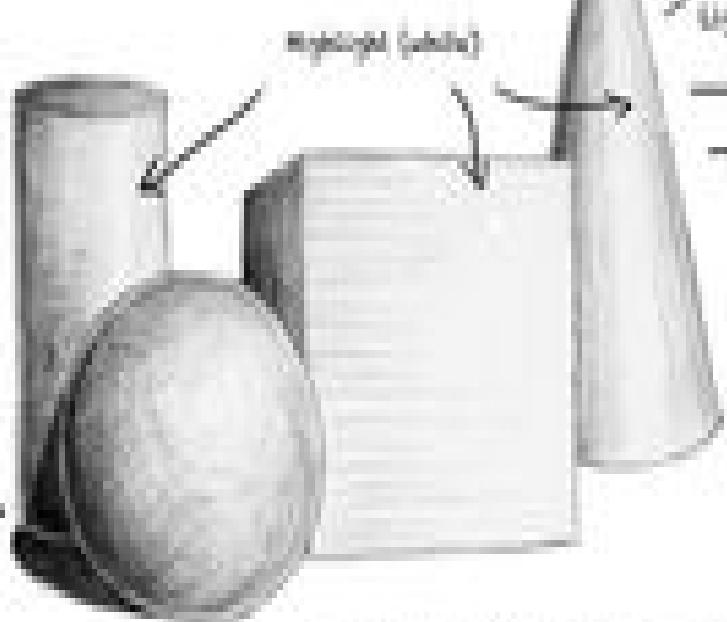

- go light to dark
- focus the center of the object
- vary the pressure on our pencil

highlight (white)

light (white)

Note that the pattern has several shades between black and white.

Cast shadow (black)

What is the difference between SHADING and PENCRAFT?
