**B.A. Athletic Training 2008-2009** Advising Worksheet for:

Student Name: \_\_\_\_\_ ID#: \_\_\_\_\_

**NOTES:**

- Some listed courses may have required prerequisites – please consult undergraduate catalog
- Transfer students must complete at least nine credit hours of major coursework at North Central College
- At least 60 credit hours must be taken at a four-year institution

*(The following information is to be used as an advising tool only – please consult the undergraduate catalog for official academic information)*

**NOTE: Due to the complexity of the athletic training major, reference to the undergraduate catalog is critical for a thorough understanding of the requirements. Requires 52 credit hours in HPE; students must complete a minimum of 121 total credit hours to graduate.**

| Course                   | Course Title   | Term Completed | Credit | Grade |
|--------------------------|--|----------------|--------|-------|
| HPE 137                  | First Aid  |                |        |       |
| BCM 140                  | Nutrition  |                |        |       |
| BIO 147                  | Anatomy and Physiology   |                |        |       |
| HPE 220                  | Athletic Training Clinical Experience I – three terms required for a total of three credit hours   |                |        |       |
| HPE 225                  | Introduction to Athletic Training  |                |        |       |
| HPE 247                  | Human Anatomy  |                |        |       |
| HPE 280                  | Human Physiology   |                |        |       |
| HPE 285                  | Applied Anatomy and Assessment Techniques in Athletic Training                                     |                |        |       |
| HPE 317                  | Kinesiology  |                |        |       |
| HPE 325                  | Advanced Techniques in Athletic Training   |                |        |       |
| HPE 330                  | Athletic Training Clinical Experience II – three terms required for a total of three credit hours  |                |        |       |
| HPE 340                  | Recognition and Evaluation of Athletic Injuries: Lower Extremity and Back                          |                |        |       |
| HPE 341                  | Recognition and Evaluation of Athletic Injuries: Upper Extremity, Head and Neck                    |                |        |       |
| HPE 347                  | Physiology of Exercise   |                |        |       |
| HPE 350                  | Medical Aspects of Sports Medicine   |                |        |       |
| HPE 351                  | Organization and Administration of Athletic Training Programs                                      |                |        |       |
| HPE 410                  | Fitness Evaluation   |                |        |       |
| HPE 425                  | Therapeutic Modalities in Athletic Training  |                |        |       |
| HPE 430                  | Rehabilitative Techniques in Athletic Training   |                |        |       |
| HPE 440                  | Athletic Training Clinical Experience III – three terms required for a total of three credit hours |                |        |       |
| HPE 497                  | Internship in Athletic Training  |                |        |       |
| REQUIRED SUPPORT COURSES |  |                |        |       |
| MTH 121                  | College Algebra  |                |        |       |
| PSY 100                  | Psychology: Science of Behavior  |                |        |       |
| PSY 250                  | Statistics   |                |        |       |
| PSY 255                  | Research Design and Experimentation  |                |        |       |
