A REPORT

A survey on the career choices of the Form 2 students in SMK Bandar Kuching No.2 has been carried out. There were 250 students who were respondents in the survey.

From the survey, it has been found that most of the students aspire to be teachers 32% or 55 students hope to be teachers. This may be because most of the students have a high regard for educators. The second most popular career choice is businessmen. 21% or 52 students hope to have their own business. They are influenced by their parents because many of their parents are businessmen and businesswomen.

The third most popular career choice is the police force. 16% or 40 students prefer to be policemen and policewomen. Most of them hope to follow the example by the policemen and policewomen they watch on television. They also want to help and keep peace and harmony in the country.

Next, is accountancy. 13% or 33 students hope to be accountants. This seems to be the choice of those who are good at mathematics. 10% or 25 students want to become lawyers or designers. They have probably been influenced by the glamour of these professions. The remaining 8% or 20 students aspire to be doctors. They want to help save lives especially the poor who cannot afford to seek medical help at the private hospitals.

From the results of the survey, we can conclude that the students in Form 2 of SMK Bandar Kuching No.2 have a variety of interests leading to different career choices.
