Name _____   5.OA.3 Quiz

☐   I can create two number patterns using the given rules.

Mark's mom gave him some medicine for his allergies. According to the directions on the box, Mark was supposed to take four tablets every six hours.
1. Create a chart of x and y values if;

x = one dose of medicine (4 tablets)

y = the length of time between doses (6 hours)

x									
y									

2. Use your values above to create a graph showing Mark's allergy protocol.

Label each axis with a title and the intervals you need.
