What is digital citizenship?

Veronica - I think digital citizenship is different for a child/young person to an adult. There are different regulations, laws, expectations for children/young people. Identity is also protected depending on age.

Jenny

Citizenship but in a digital world

Anne - acting appropriately online, providing a positive image and following appropriate codes of conduct

Mel - Being able to act as a responsible member of the online community

Angie: digital citizenship is the ability to interact with the online world in an appropriate and constructive manner, with a clear understading of regulations, consequences and responsibilities.

Supporting positive online behaviours

Carole - a right of passage online - the Acquisition of skills for creating a digital professional presence online

engage in a positive and constructive way with others that respects and values differences and
