

FROG CYCLE

CROSSWORD

DOWN

- 1: A small animal that spends much of the time in water and has smooth skin, webbed feet, and long back legs for jumping.
- 3: The body part that a fish uses for breathing.
- 4: The series of stages in the development of some animals from their immature form into adulthood.
- 6: The gelatinous egg mass of a frog.
- 7: A small frog.
- 10: A person or animal that has grown to full size and strength.

ACROSS

- 2: A container usually made by weaving together long thin pieces of material.
- 5: All the parts of an animal's life from birth to death. The life cycle of a bird has many different stages.
- 8: A young insect that has left its egg but has not yet developed wings, or the young of some animals.
- 9: A small creature that becomes an adult frog or toad, that has a rounded body and a long tail, and that lives in water.
