

Context Clues! Once in a while when reading you may come across a word you don't know. If you don't have a dictionary handy the best thing to do is to try to figure out the meaning of the word based on *context clues*, or the surrounding words. For each word below re-read the page, find the word and try to determine the word's meaning based on the sentence before and the sentence after it. After, check a dictionary to see if you were correct!
