

Activity 1: The Area of a Square

Side Length = 6 units Area = $6 \times 6 = 36$ square units

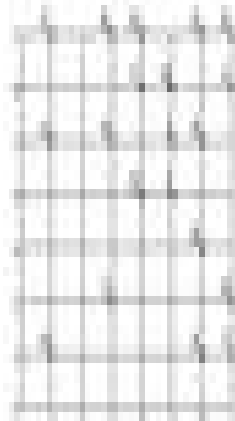

The area of a square is side length times side length.
 Area = side length \times side length

Activity 2: The Area of a Rectangle

Side Length = 4 units Area = $4 \times 3 = 12$ square units

Width = 3 units

Side Length = 5 units Area = $5 \times 4 = 20$ square units

Width = 4 units
