

Step 2 of 2 together: 2. Summary of the Features of Plate Margins:

Materials Name & Matter	Important Features	Type of stress	What gets formed?	
<p>1</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p> <p>100</p> <p>100</p>
<p>2</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
<p>3</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
<p>4</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
<p>5</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
<p>6</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
<p>7</p> <p>Convergent</p> <p>Divergent</p>	<p>Blocky plate boundaries where the two plates are moving past each other</p> <p>Blocky plate boundaries where the plates are moving towards each other</p> <p>Blocky plate boundaries where the plates are moving away from each other</p>	Compression	<p>Subduction</p> <p>Mid-ocean ridges</p> <p>Transform faults</p>	<p>100</p> <p>100</p> <p>100</p>
