## Using Grams and Kilograms

 2-9

Use grams to measure light objects.

1 dollar bill weighs 1 gram.

Use kilograms to measure heavier objects.

A dictionary weighs about 1 kilogram.

$1,000 \text{ g} = 1 \text{ kg}$

Choose a unit to measure the weight of each item. Write grams or kilograms.

1.

2.

3.

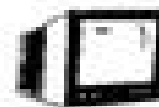

4.

5.

6.

Compare. Write <, >, or =.

7.  $3,000 \text{ g}$    $2 \text{ kg}$

8.  $1 \text{ g}$    $1 \text{ kg}$

9.  $2 \text{ kg}$    $2,000 \text{ g}$

Circle the best estimate.
