

## Non Science Teacher Focus Group Questions

1. What is your experience with "Mrs. Motsinger's Science Site?"
2. What is your opinion of the functionality of "Mrs. Motsinger's Science Site" in regards to student independence? (Is the site laid out in such a way that students can maneuver with minimal assistance from a teacher?)
3. Not including redirection of students to read the directions in the first place, approximately how much time did you spend assisting students in maneuvering around the site and within the activities during each visit to the computer lab?
4. How competent did you feel in assisting students as they navigated through the site and activities?
5. Which features of this site do you feel helped students remain autonomous?
6. Which features do you feel caused the most confusion?
7. What improvements would you suggest for this site to increase student independence?
8. Do you have any other comments you'd like to share?
