Block # _____

Multiplying Binomials: Box Method

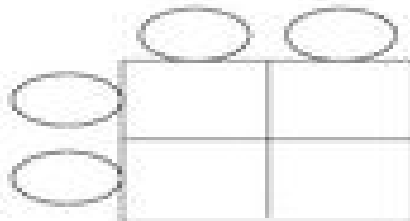

- > Fill in the bubbles by writing one of the binomials along the top of the box, and the other down the side of the box.
- > Multiply row \times column.
- > After multiplying, collect like terms. (They should be in the diagonal).

Ex 1) $(x + 6)(x + 4)$

Try using the Box Method for the problems below.

Ex. 2) $(x + 2)(x - 3)$

Ex. 3) $(2x + 4)(x + 5)$
