Monday

**Math Practice: Add and Subtract within 20 (2.OA.2)**  
**Using Strategies**

**Strategy #1: Zero Facts**

- Any number + Zero = that number
- Any number - Zero = that number

$14 + 0 = \underline{\quad}$

$8 + 0 = \underline{\quad}$

$7 + 0 = \underline{\quad}$

$3 + 0 = \underline{\quad}$

$20 + 0 = \underline{\quad}$

$11 - 0 = \underline{\quad}$

**Strategy #2: Counting on & Counting back**

- For addition problems, count on from the greater number.
- For subtraction problems, count back from the greater number.

$9 + 4 = \underline{\quad}$

$5 + 4 = \underline{\quad}$

$7 + 3 = \underline{\quad}$

$17 - 3 = \underline{\quad}$

$20 - 2 = \underline{\quad}$

$11 + 3 = \underline{\quad}$

$10 - 3 = \underline{\quad}$

$15 - 2 = \underline{\quad}$

$12 - 3 = \underline{\quad}$

$15 + 4 = \underline{\quad}$

$20 - 5 = \underline{\quad}$

$10 + 5 = \underline{\quad}$

**Strategy #3: Doubles and Near Doubles**

- If you add 2 groups of the same number, you are adding double numbers.
- If you subtract double numbers, you get zero.
- You can use doubles to learn other math facts.

$9 + 9 = \underline{\quad}$

$9 + 8 = \underline{\quad}$

$9 + 7 = \underline{\quad}$

$8 + 8 = \underline{\quad}$

$8 + 7 = \underline{\quad}$

$8 + 6 = \underline{\quad}$

$11 - 11 = \underline{\quad}$

$18 - 18 = \underline{\quad}$

$15 - 15 = \underline{\quad}$

$7 + 7 = \underline{\quad}$

$7 + 6 = \underline{\quad}$

$7 + 8 = \underline{\quad}$

**Strategy #4: Using 10 to add 9**

- Think of the 9 as 10.
- When you find the sum, subtract 1.

$9 + 3 = \underline{\quad}$

$9 + 6 = \underline{\quad}$

$7 + 9 = \underline{\quad}$

$9 + 5 = \underline{\quad}$

$9 + 2 = \underline{\quad}$

$4 + 9 = \underline{\quad}$
