Find the missing part for exercises I and 2

١.

- 2
- **(D)**

- 2. There are 8 jars. 6 jars have jelly. The rest have peanut butter. How many jars have peanut butter?
 - (A) 3
 - 14

 - (D) 5

3. Use cubes to solve. Choose the number sentence that shows the story.

Faiza has 3 purses. She gives 2 away as gifts. How many purses does Faiza have left?

$$3 - 2 = 1$$

$$3 + 2 = 5$$

$$5 - 2 = 3$$

$$5 - 3 = 2$$

4. Roberto ate 10 crackers. Carrie ate 5 crackers. How many more crackers did Roberto eat than Carrie?

$$10 + 5 = 15$$

$$15 - 5 = 10$$
 $10 - 5 = 5$

$$10 - 5 =$$

$$5 + 5 = 10$$

(A)
