Division and multiplication (1) Maths worksheets from mathsblog.co.uk

If you know one multiplication fact you can quickly work out two division facts!

If you know that $5 \times 2 = 10$ then you can work out that:

$$10 \div 2 = 5$$
 and $10 \div 5 = 2$

Make two division sentences from these multiplication facts:

1.
$$7 \times 2 = 14$$
 \div $=$ and \div $=$
