Science Project Worksheet 5

METHODS

Please check off this checklist and staple this sheet to your procedure.

Materials:

☐ Identify test subjects with both common and scientific names
☐ Specify where test subjects were obtained from and the amount needed
☐ List all materials used in the experiment
☐ Specify amounts, type (model # where available)/brand, and source of all test equipment

Test subjects: _____ _____
common name scientific name

Amount: _____ Obtained from: _____

Amount	Type/Brand	Materials	Source

Procedure: (Type out and attach; check off this checklist)

☐ List independent and dependent variables
☐ Identify the control and experimental groups (if applicable)
☐ List steps in order with enough detail for someone else to follow
☐ Use complete sentences in past-tense, passive voice (3rd person; no pronouns: I, we, my, etc.), without contractions (didn't, wasn't, wouldn't, we're, etc.)
☐ Describe controlled conditions
☐ Do a minimum of three trials (25 for surveys)
☐ Include diagrams or photos of set-up if it is complicated. Include copies of any surveys or tests (and answer keys) given to subjects.
