

## 4th GRADE PRISM BOOK REPORT QUESTIONS

**Directions:**

Students are to do 10 book reports this year. They have been given a schedule of when these are due. They are to complete eight (8) of the following forms and write two (2) "book reviews". The directions for the book reviews will be given in class.

Each report should be from a different genre (type) of book.

Below are the questions from 30 different types of books to choose from.

When students have read a book, they should choose the questions for that specific type of book to answer. They are to then answer the questions by word processing well developed answers (several sentences for each question) and printing them. The students should attach a copy of the questions with their answers before turning them in.

**Extra Credit:** Students may earn Extra Credit by doing more than the 10 reports in a year.
