

## easter word problem

Name: \_\_\_\_\_

Date: \_\_\_\_\_

- 1) The Easter Bunny started with 42 colorful eggs in his basket. As he hopped through the town, he hid 15 eggs in different places for children to find. How many eggs does the Easter Bunny still have left in his basket?

- 2) Emily and her brother James went on an Easter egg hunt at the park. Emily found 28 eggs hidden under the trees, and James found 19 near the playground. How many Easter eggs did they find together?

- 3) Emma and her friends spent the afternoon painting Easter eggs. In the morning, Emma painted 36 eggs in beautiful pastel colors. Later in the afternoon, she painted 24 more eggs with fun patterns. How many eggs did Emma paint in total?

- 4) During the Easter festival, there was a fun bunny hop race. At the start, there were 9 little bunnies hopping as fast as they could toward the finish line. After a few minutes, 4 bunnies reached the end. How many bunnies are still hopping toward the finish line?
