

Name _____

Identifying rays, segments, and intersecting lines

Date _____

One Parallel Penpal

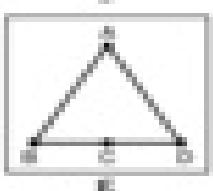

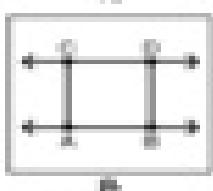

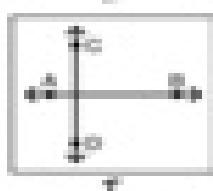

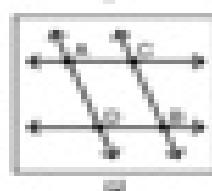

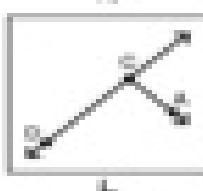

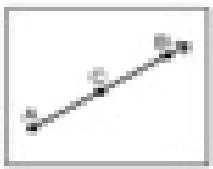

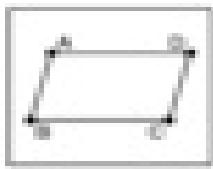

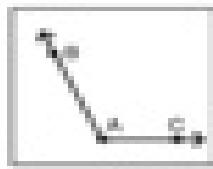

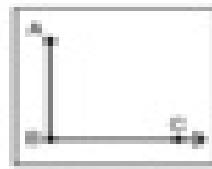

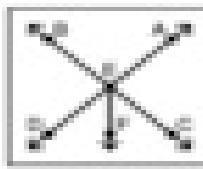

Find the diagram that matches each description. Write the letter on the line. Hint: some pictures will be used more than once.

- _____ 1. \overline{AB} intersects \overline{CD} .
- _____ 2. \overline{DC} is parallel to \overline{AB} .
- _____ 3. \overline{AB} and \overline{CD} are parallel.
- _____ 4. \overline{AB} is perpendicular to \overline{CD} .
- _____ 5. \overline{AB} intersects \overline{EF} .
- _____ 6. Point C is on ray \overline{AB} .
- _____ 7. \overline{AB} intersects \overline{AC} at point A.
- _____ 8. \overline{AB} is perpendicular to \overline{CD} .
- _____ 9. C is the midpoint of \overline{BD} .
- _____ 10. \overline{EF} intersects \overline{AB} .
- _____ 11. \overline{AB} intersects \overline{EF} .
- _____ 12. \overline{CD} intersects \overline{EF} .
- _____ 13. \overline{AC} and \overline{BD} are parallel.
- _____ 14. \overline{CD} is perpendicular to \overline{AB} .
- _____ 15. \overline{EF} intersects \overline{BD} .

If you hear the story about the penpal,
Just look the Reindeer!

To answer the riddles, write each letter on
the matching numbered line or lines.

T	E	S	F	M	N
E	R	I	A	H	O
R	I	N	D	E	R

Answers: Draw a diagram that shows \overline{EF} parallel to \overline{AB} and perpendicular to \overline{CD} .
