

Morse Code Worksheet

Name _____
Points _____/50

Samuel Morse Invented a code using dots and dashes to send information in the 1800's. This code is still useful today and set the stage for digital electronics (computers, music and much more).

Your assignment: Send and receive 3 messages using CODE. The main idea is to COMMUNICATE. This means taking your time to send the code.

Send message 1- You are stranded and need food, water, and matches for a fire. Write a code for this.

Send message 2- Send a warning to another group near you. There is a dangerous storm, hurricane, tornado, or flooding in the next 1, 2 , or 3 hours. Write a code for this.

Send a message 3- To get home safely, fuel is required. You need gasoline, diesel fuel, or Jet fuel. 5 gallons, 10 gallons or 20 gallons. Write a code for this.

PRINT YOUR RECEIVE CODES ON THE BACK OF THIS SHEET!
