1. **KLASSIFIZIERE DIE FOLGENDEN VÖGELN ANHANDER DER 3 MERKMALE DER KLASSIFIKATION.**

The image displays 18 different bird species, each enclosed in a rectangular box. The birds are arranged in a scattered pattern. Three boxes contain labels: a box with a penguin is labeled 'AIR', a box with a toucan is labeled 'SEA', and a box with a kiwi is labeled 'LAND'. The other 15 boxes are empty, intended for classification by the student. The birds shown include a penguin, a toucan, a kiwi, a frigatebird, a pelican, a crane, a stork, a swan, a duck, a seagull, a pelican, a crane, a stork, a swan, a duck, and a seagull.
