

1. Where do we find a gradient for the electric field?

2. How do we find the electric field? (Use Gauss's Law)

3. How do we find the electric field? (Use Gauss's Law)

4. How do we find the electric field? (Use Gauss's Law)

5. How do we find the electric field? (Use Gauss's Law)

6. How do we find the electric field? (Use Gauss's Law)

7. How do we find the electric field? (Use Gauss's Law)

8. How do we find the electric field? (Use Gauss's Law)

9. How do we find the electric field? (Use Gauss's Law)

10. How do we find the electric field? (Use Gauss's Law)

11. How do we find the electric field? (Use Gauss's Law)

12. How do we find the electric field? (Use Gauss's Law)

13. How do we find the electric field? (Use Gauss's Law)

14. How do we find the electric field? (Use Gauss's Law)

15. How do we find the electric field? (Use Gauss's Law)

16. How do we find the electric field? (Use Gauss's Law)

17. How do we find the electric field? (Use Gauss's Law)

18. How do we find the electric field? (Use Gauss's Law)

Final Review

19. How do we find the electric field? (Use Gauss's Law)

20. How do we find the electric field? (Use Gauss's Law)

21. How do we find the electric field? (Use Gauss's Law)

22. How do we find the electric field? (Use Gauss's Law)

23. How do we find the electric field? (Use Gauss's Law)
