

# Learning Objectives

## Case Report Case Presentation

Week 10  
 Case 11

### 1. Case presentation (10 minutes)

--	--

- 11. Discuss with your group about the clinical/subjective and physical exam details.
- 12. Discuss with your friend about the case history. What is the case? What history helps your differential? Discuss the management options.

Case	Illustration	Associated Signs	Key Point
1		None	Respiratory, GI, renal, hepatic, etc.
