

Notes about this census:

Unity Consulting compiled the information in this census in 2009 and 2010 and distributed it June 2010. The data source column indicates where we got the data for the survey:

- A: Responses come from congregational responses to the 2009 congregational Policy Governance® list
- B: Responses come from Unity Consulting's review of posts on the UUA's Policy Governance® list
- C: Responses come from information Unity Consulting gathered during the 2009 UU University Gathering
- D: Responses come from miscellaneous other sources.

We included all congregations that indicated they've at least started writing policy, even if they were not. Because there are wide variations in the way congregations interpret Policy Governance®, we marked congregations that indicated they are operating in or are in active transition to Policy Governance® or that they are considering it. Policy Governance® is the registered service mark of John Carver; the authoritative website for the
