

Informational Book Review Worksheet

An informational book is not a fiction book. It is a non-fiction book with accurate and specific information about a topic. If you find you need additional information about your book's topic, you may use more than one informational book for this review. However, all books must be about the same topic.

Please fill in this worksheet to help you complete your book review. Please staple this worksheet to your written book review and turn it in to Mrs. Dominguez.

Title of Book _____

Topic of Book _____

When was the book written and published? _____

Does this book have (Please circle the correct choice)?

Photographs Illustrations Both Neither

List five interesting or new words you read in your book.
