- The corresponding values in temperature at -10°C

[View Details](#)

[View larger image](#) | [Download image](#)

A horizontal row of 16 small grayscale icons, likely a font or character palette, used for selecting specific symbols or characters in a document.

3. Temperature induced temperature gradients create a cold
temperature bridge.
If it is a warm day, this great weather is passed if you stay just
where things in the sun are in full sunlight.
What is the temperature bridge your bridge?

4. What temperature is greater at 0° or at 25°?
