

Lesson plan

- **Lesson:** 10th week
- **Unit:** Five lessons
- **Time allocated:** 20-30 minutes
- **Goal:** Speaking (comprehension)
- **Materials:** Visual aids + feedback
- **Outcomes:** By the end of the lesson students will be able to describe their lesson. (part of the lesson will give insights about their lesson lesson).

Procedure:

- **Activity 1:** Asking students to describe their lesson briefly so that I can better understand the different parts of the lesson.
- **Activity 2:** Asking to demonstrate concepts. I would provide multiple questions to give the way for students to talk about their "lesson lesson".

Questions:

- "How many lessons are there in your lesson lesson?"
- "What are they?"
- "Why do you like your lesson lesson?"
- **Activity 3:** pair work - comparison of the pair will ask further questions to describe their lesson lesson. (using earlier questions of activity 2 and provide a new form of their dialogue).

SLP:

• All these activities / instructions will be used for the lesson lesson.
