

Fossil Fuel Presentation

Use the answers to the questions below to give a presentation on a fossil fuel; the pictures illustrate some of the answers and will make your presentation more interesting. Plan how you will tell the rest of the class what you have discovered, make sure everyone in the group is included.

What is your fossil fuel called?

What is it made from?

Where can it be found and in which countries?

How is it extracted from the ground?

How does it get moved around?

How many power stations does it fuel in the UK?

Is it used as a fuel for other things as well as power stations? (Think about transport and in your homes)

When will it run out?

What are the good things about this fuel?

What are the bad things about this fuel?
