

Fossil Record Worksheet

Name: _____

For each of the following fossil records, indicate the areas of speciation, extinction, or both. Then connect each species to the one it originated from, to form the evolution tree.

Fossil Record #1

Fossil Record #2

Create your own fossils, using any shapes you'd like. Be sure to follow the speciation/extinction guidelines and connect each species to show where it originated. Your fossil record must include at least 10 different species.

Extinction _____

Speciation _____

Speciation/Extinction _____

Speciation _____
