

Lesson 1

We can write thinking about operations as attaching the happen to the number.

12 + 3 means _____ 12 - 3 means _____

11 x 2 means _____ 12 ÷ 3 means _____

You can write about an operation as an action that you happen to any number. In this case, it is called a function.

1 + 3 means _____

In the use of a function, it is more to think about the operation being attached to the number what follows. This is so if the function involves with numbers going into the number and answer coming out. The number going in and the number coming out are called an input and output because they happen in a specific order.

12 +	12 -	11 x
11 ÷	1 +	1 x

12 +	12 -	11 x
11 ÷	1 +	1 x

12 +	12 -	11 x
11 ÷	1 +	1 x

Make a your own function! _____

Use the table for your function!

+	-
x	÷
