

Mom baked 3 trays of 6 cookies.

How many cookies in all?

Plan: I will draw a picture.

$$6 + 6 + 6 = 18 \quad \text{or} \quad 3 \times 6 = 18$$

Answer 18 cookies

Division Story:

Mom baked 18 cookies on 3 trays.
All the trays had the same number
of cookies. How many cookies on each
tray?

Plan: I will use multiplication

$$\text{I know } 3 \times 6 = 18 \text{ so } 18 \div 3 = 6$$

Answer 6 cookies on each tray
