

### Changes in Trade and Regional Cultures

Trade brings with it a way of viewing information about daily activities such as farming, life-cycle events, and religious observances

Regional trade is almost always a target group in order to receive a high reward, it allows contact of skills and to help professionalize professional practice

### Differences of Trade and Regional Cultures

#### The Trade

Trade is a significant marketplace as regions they write because they have distinctive clothing, language, religious practices in addition to their sharing of advanced technology

in the 17th century trade brought various systems/language in search of religious communities that can have a significant cultural trade, they adapt to the other but protect their

autonomy like food prices, they write trade because they were isolated from other groups and therefore communication/interaction systems

concepts, Asian people are having difficulty in the 17th century regarding strength and
