## Enzyme Worksheet

	Bill, The Worldsheet
Answer the following questions based on your knowledge of enzymes.	
1.	What is an enzyme? How can enzymes affect a reaction?
2.	What is an enzyme made of? What holds an enzyme in its conformation?
3.	What is the lock and key mechanism of enzyme binding?
4.	Differentiate between catabolism and anabolism.
4.	Differentiate between catabolism and anabolism.
5.	What environmental factors affect enzyme activity? Explain how they do so.
