

With the information below, complete the questions below.

Standard Deviation	2.5	100
Sample Size	25	100
Mean	1	100
Standard Error	0.5	100
Standard Deviation	2.5	100

Answer the questions below.

What is the standard deviation?

What is the sample size?

What is the mean?

What is the standard error?

How many standard deviations away from the mean is the standard deviation?

How many standard deviations away from the mean is the sample size?

How many standard deviations away from the mean is the standard error?

How many standard deviations away from the mean is the standard deviation?

How many standard deviations away from the mean is the sample size?

How many standard deviations away from the mean is the standard error?

How many standard deviations away from the mean is the standard deviation?

With the information below, complete the questions below.

Standard Deviation	2.5	100
Sample Size	25	100
Mean	1	100
Standard Error	0.5	100
Standard Deviation	2.5	100

Answer the questions below.

What is the standard deviation?

What is the sample size?

What is the mean?

What is the standard error?

How many standard deviations away from the mean is the standard deviation?

How many standard deviations away from the mean is the sample size?

How many standard deviations away from the mean is the standard error?

How many standard deviations away from the mean is the standard deviation?

How many standard deviations away from the mean is the sample size?

How many standard deviations away from the mean is the standard error?

How many standard deviations away from the mean is the standard deviation?
