Module level 1 – After Year 1

Thoughts on smoking

Martha, who has never used medical cannabis, described it as follows: She found it helpful in teaching and thinking with a group of other girls before school every day. She said that it was a good idea to be a part of a group that was to be a support system.

Martha, who has never used medical cannabis, described it as follows: She found it helpful in teaching and thinking with a group of other girls before school every day. She said that it was a good idea to be a part of a group that was to be a support system.

11

Like Martha, young people also sometimes use their first experiences. They are usually given their first experience by a friend, although they do not always have a choice. They usually smoke it because they think it is a good idea to be a part of a group that was to be a support system.

12

Young people usually smoke cigarettes, which are sold at low prices and are usually sold in any form of their choice. They begin smoking when they are in school or at work. They think it is a good idea to be a part of a group that was to be a support system. They usually smoke it because they think it is a good idea to be a part of a group that was to be a support system.

13

people who smoke. Young people think it is a good idea to be a part of a group that was to be a support system. They usually smoke it because they think it is a good idea to be a part of a group that was to be a support system.

14

Martha described the first time she smoked marijuana at school. She said that it was a good idea to be a part of a group that was to be a support system. She usually smoke it because they think it is a good idea to be a part of a group that was to be a support system.
