ELEMENTS OF ART

Draw on each box examples of the elements of art!

LINE

Line is the most basic element of art. Without line the other elements couldn't exist so let's start here and then we will gradually go more advanced.

SHAPE

When a line meets up to enclose a space, a shape is formed.

FORM

Form is the next step up from shape as we now add depth to it to create a three dimensional form.

SPACE

Space is what lies between, around or within an object.

TEXTURE

Actual texture is the way an object feels to the touch.

COLOR

Colour is created when light is reflected into the viewer's eye.

VALUE

Value is how light or dark something is.
