### My school

My school, Saint Patrick is catholic one of the best schools in the Western Coast. It is located in Littleton, Colorado. Students study catholic school for many reasons.

Firstly, I chose the school for the school has an amazing library. In the school, it has thousands of books, so I don't have to walk across streets to other schools. We have a school of our own. Also, the building, under the low cost, in the city to not a good idea. The classrooms are spacious with the best furniture available in the market. The chairs are comfortable and the desks are neat and clean. There is a book for my bag and a drawer for my books. There are several shelves for the class like. The walls have bulletin boards and many teaching aids. My class has a central air conditioning. The temperature teaching class is around 68 to 72 degrees Celsius in winter and in summer, so I don't feel hot or cold. I always remember the students enjoy reading for the fun and excitement of the study and learn.

Secondly, each classroom is equipped with the best up-to-date technology such as a video projector connected to a flat computer and a smart board. The board is interactive. It can be used like a big computer screen. We don't use chalk on the board and only use a white pen and we can write with us step-by-step as we like. We can also write about our topics on the smart board. I like the interactive program with the help of participation among all students especially with intelligent students.

Thirdly, at Charles middle school has the best students. They want students are allowed to study here as we don't have any tuition at our school. The teachers also accept us that learn to give us knowledge and teach us good discipline. The school principal is kind too and he always listens to us and gives the best results for the problems.

Our school has many physical and chemistry laboratories. We can make all kinds of experiments in the laboratories. There are also many sports facilities at our school such as a swimming pool, a gym, football, basketball, volleyball, and other sports equipment.

Finally, the school will always be the best and it will always welcome good students. I love my school and I will do my best to achieve my education. In fact, I want to be a doctor and I think this is the best school where I can fulfill my goal and achieve my goals.
