

1.2. THE 2015 PARIS AGREEMENT

Before Reading

Do you think that the world is warming? Why (not)?

What do you think the consequences of "global warming" could be?

While reading

1) What happened in Paris/Climate in 2015?

2) What is global warming?

3) Give traditional explanation:

“The sun, clouds and other gases warm the surface of the planet, but only by a moderate amount and _____ the sun’s rays through the atmosphere. The atmosphere _____ the sun’s rays and reflects them for _____ on land, especially on _____ the amount of surface temperature Earth’s atmosphere and oceans are rising.”

4) Complete: What’s the “other explanation” and what’s the best science solution?

5) What evidence do we have for global warming?

a.

b.

c.

d.

e.

6) What climate change effects?

a.

b.

c.

d.
