

# Trio Trouble!

Find the missing addend for each equation. Each equation has 3 addends.

$2 + 4 + \square = 9$

$5 + \square + 2 = 12$

$3 + 4 + \square = 8$

$\square + 0 + 2 = 5$

$3 + \square + 6 = 11$

$\square + 1 + 5 = 10$

$4 + 1 + \square = 7$

$3 + 10 + \square = 14$

$8 + \square + 4 = 15$

$\square + 2 + 1 = 6$

$7 + \square + 2 = 13$

$\square + 2 + 0 = 4$

$4 + 5 + \square = 16$

$1 + \square + 0 = 3$
