

## **ROLE AND IMPORTANCE OF MANAGEMENT INFORMATION SYSTEM IN TODAY'S TECHNOLOGY DRIVEN ORGANIZATION**

Compare and contrast the management information systems (MIS) in place in 2 distinctly different organizations.

- Compare each organization's use of information systems to help manage internal operations and to make decisions.
- Assess how these two organizations use information technology for competitive advantage.
- Appraise the individual and organizational consequences of the use of information technology, and recognize potential security breaches and computer crimes.

### **MIS**

#### **Introduction**

Management Information System is the most vital and crucial part of an organization. It plays an important role in the working of an organization's systems and procedures. It can in simple words be explained as a computer-based system that provides managers with the tools to organize, evaluate and efficiently manage departments within an organization.
