

Barn Owl Food Web Worksheet

Ecology
Sessions 2, 3

Student Name: _____ Date _____

I. Owl Pellet Dissection

Total number of prey in owl pellet: _____

Type of Prey Animal	Number of Each Type of Prey	Food Eaten by Prey

II. Barn Owl Food Web

Complete the food web using data you collected plus data from the "Food Web" poster and your Module library. You may add boxes or leave them blank, if necessary. Remember that most organisms eat more than one thing. This means that one box may have several arrows, and one organism may participate at several levels of the food web.
