

## Piecing It Together

Our great nation is huge and is made up of several different regions. Pieced together these regions make up one whole country! Color the key to assign a different color to each region. Then use a resource book or your textbook to help you color each state according to the region in which it's located.

When you've finished coloring the map, number a sheet of paper 1–50. Write the name of each state and its capital on the paper, using the map as your guide.

**Key**

Color Region

- Northeast States
- Southeast States
- Middle West States
- Southwest States
- West States

**Bonus Box** - Add each state's postal abbreviation to the list of state names and capitals.
