

## Rewriting Formulas (A)

Solve for  $c$  in terms of the other variables.

1.  $a = c + (-10)$

6.  $u = c + 5$

11.  $c - x = b$

2.  $v - c = 10$

7.  $z - c = x$

12.  $c - (-4) = z$

3.  $c - a = b$

8.  $u = c - a$

13.  $c - z = a$

4.  $y = c + x$

9.  $b = c - y$

14.  $c + u = z$

5.  $y = c - 6$

10.  $c - x = z$

15.  $c + b = x$
