

# The BFG's D.I.Y. Dream Catcher

You may not have snooze-boggling ears like the BFG, but with the help of this dream catcher you can trap phantasms for glorious dreams every night!

## WHAT YOU NEED

- 1 paper plate
- Stringers, ribbon, or yarn
- Scissors
- Markers, glue, colored pencils, or whatever else you use just to make your dream catcher look special!

## INSTRUCTIONS

- Cut a large circle out of the center of the paper plate.
- Cut the circle in half and attach with glue or tape to the outer rim of the plate (this will create "ears" similar to the BFG).
- Using stringers, ribbon, or yarn create a "web" in the center of the plate in order to catch the dreams (attach with glue or tape).
- Done!

Make your own piece of ribbon or yarn to hang your dream catcher above your bed!
