Read the text and answer the following questions.

Simon's Family

My grandparents on my father's side of the family were Irish. They moved to Ireland because they wanted to find a job. They worked in Cardiff several years ago, and started a small shop. My father was born in 1947, and left home when he was fifteen to go and work in London. He worked in a hospital during the war and after he passed an entry company.

My mother's family was English and came from Liverpool. His mother was born five years after my father. Her first job was as a secretary and then she went to work in Manchester.

My parents met in 1968 at a friend's party and they married one year later. I was born in 1969, and my sister was born 2 years later. I studied Mathematics at London University. My first job was as a shop assistant and now I work as a teacher.
