

## Komplikatii vted spredete between plants

Human society groups have their strengths. Loss of power can thought about a threat. "They" make groups feel not comfortable in their habitat. But without thought, we don't notice our own strengths or weaknesses.

Presentation: the original idea from the group, where each member comes from a different country and gives a short presentation.

Introducing of the word "strengths":

• Our group strengths

• Right strength - wrong strength - wrong strength - wrong strength

Task 3 stage:
