## How Many Latkes?

Rachael's family had latkes for the first night of Hanukkah. Every person in Rachael's family ate a different number of latkes. Use the clues to find how many latkes each person in Rachael's family ate. Mark an **X** in squares that cannot be the answer. Mark an **0** in squares that you are sure are the correct answer.

		Number of Latkes					
		Two Latkes	Three Latkes	Four Latkes	Five Latkes	Six Latkes	Seven Latkes
FAMILY MEMBERS	Mom						
	Dad						
	Aunt Beth						
	Uncle David						
	Jacob						
	Rachael						

### Clues

- Jacob ate an even number of latkes.
- None of the males ate three latkes.
- Mom ate two more latkes than her husband.
- Between them, Aunt Beth and Uncle David ate a total of twelve latkes.
- Jacob ate more latkes than Aunt Beth.
