

## Phases of the Moon - Matching Key and Hints

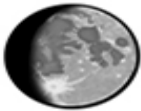

1. new moon

2. waxing crescent

3. first quarter

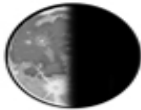

4. waxing gibbous

5. full moon

6. waning gibbous

7. third quarter

8. waning crescent

Is the moon waxing (growing larger) or waning (growing smaller)?

HINT: Draw a line down between the dark and light of the moon. The lighted half now looks either like a:

b for born or waxing  
d for dying or waning
