Note: TEXTEAMS activities provide students with an experience that interweaves and encompasses a large number of TEKS. Should you choose another suggested activity in place of TEXTEAMS, be aware that these other activities may expose students to only one of the TEKS indicated, therefore eliminating the multi-faceted, interconnectedness of TEXTEAMS. Many of the additional listed activities provide reinforcement and extension of the concepts.

*denotes this TEXTEAMS unit has been referenced in at least one other grade level. Please check with the appropriate grade level team(s) to determine the depth of coverage.
